

About Freeborders

Freeborders is a leading provider of technology solutions and outsourcing from China. Freeborders provides industry expertise to North American and European companies in financial services, technology, retail/consumer goods, manufacturing and transportation & logistics. Headquartered in San Francisco with offices on three continents, Freeborders has developed a track record of service delivery to the Fortune 1000 by combining world-class project management in both hemispheres with one of the largest technology centers in China. Freeborders believes China's massive and growing supply of IT talent and the country's emerging importance in the global supply chain make China a strategic imperative for any company seeking cost-effective world-class technology solutions.

CHINDUSsm

CHINDUSsm approach includes adopting best practices from the US, India, and China. From the US, we leverage our strong onsite domain knowledge, our strong US management team, and our relationship management capabilities. From India, we adopt industry best practices around governance and the global delivery model. From China, we leverage the massive talent pool, the strong technical skills, and the English language capabilities that China can deliver.

ATLASsm

Freeborders world class governance ensure the highest level of project management and delivery. ATLASsm model has been cited by business analysts as a major differentiator.
